### **BMC SHOWS UP WITH 5 NEW MODELS AT BUSWORLD'17, BUSWORLD 2017 Europe Kortrijk, Belgium, 20-25 October 2017**

BMC, proud leading Turkish manufacturer of high volume commercial and military vehicles, launches 5 new models at Busworld Kortrijk Exhibition which will take place between 20-25 October in Belgium. With its capability to respond in the quickest way to the changing conditions and customer demands, the company boasts a product range that includes vehicles indispensable for passenger transportation. BMC, of which increasing market share and growing sales amount are the proof for customer satisfaction, will reveal 5 new models 4 of which are at the city bus category.

BMC's strong positioning of its brand all over the world, as well as its effective marketing strategy provides the ability to respond to the customer needs with innovations and new products in domestic and overseas markets. BMC buses are not only on the roads of European countries thanks to the years of experience, but the company is also able to continue to its path with technology. With its newly generated electric buses, BMC is continuing to develop technology for electric propulsion in the segment of City Buses. At Busworld '17, the company will for instance reveal the latest versions of its all-electric offering on the City Bus segment.

BMC will also launch "Apron14m" that provides a new solution for transporting airport passengers. With this product, BMC continues to reflect its powerful image on efficiency. Apron 14m is the proof of efficient time usage at the airports by reducing the time spent on the ground to a minimum. Thus, not just the challenge of reducing time from check-in to aircraft is defeated, comfortability on the other hand is put on the table as an important aspect.

### **BMC EXHIBITS 5 OF ITS NEWLY CONFIGURATED VEHICLES AT BUSWORLD '17**

At Busworld '17, BMC will promote 5 of its newly generated vehicles with the following technical details:

### PRESS RELEASE

#### ABOUT BMC

As one of the leading automotive companies providing solutions in both defense and transportation industries, BMC has been established in 1964 in İzmir. Since the first day of its establishment; BMC, by developing in-house know-how via its own R&D Center, has achieved a significant contribution of 10 billion dollars to Turkish economy. Within 53 years, BMC has achieved to compensate the needs of its customers via the production of 300.000 vehicles.

Occupying a total area of 250.000 square meters in Pınarbaşı Plant, BMC manufactures buses for public transportation, light and heavy weight trucks for transportation and logistics industry together with the tactical armored vehicles for the defense industry. Together with a wide range of products involving configuration vehicles, spare parts, engines and casting pieces, BMC has exported to more than 80 countries which are on the most part members of European Union.

BMC presents an ability to develop dynamic and innovative viewpoint over research-development and design activities to produce passenger transportation vehicles. Thanks to the know-how specialised on three dimensional design and engineering analysis, BMC also supplies front or rear engined solo articulated and double decker buses with diesel, CNG and hybrid engines in the following lengths of 8,5 m - 9 m - 10 m - 12 m – 14 m - 18 m. All these products can be reconfigured in accordance with the various demands received from different range of customers. With the aim of empowering its dynamic and flexible production capacity, BMC continues to work for the modernization of its overall structure by following the global sectoral trends.

Via foreseeing the customer demands and the prospective client needs, BMC continues to develop its expertise on offering solutions to maximise travel experience of the passengers at a more secure and comfortable level.

Operating with a highly skilled workforce including more than 1650 white and blue collar employees and with the capacity of manufacturing 22 thousands of vehicles, BMC is moving forward to become a global brand via the renewal of its goals.
