

PRESS RELEASE

07.04.2025

BMC WILL INTRODUCE INNOVATIVE VEHICLES AT WARSAW BUS EXPO 2025

BMC, one of the leading commercial vehicle manufacturers in Türkiye, will exhibit its vehicles equipped with advanced technology by participating in the Warsaw Bus Expo to be held in Warsaw, Poland between April 8-10, 2025.

Continuing to strengthen its presence in the European market, BMC will come together with professionals in the industry and introduce its modern and environmentally friendly vehicles at Warsaw Bus Expo 2025.

At the fair; PROCITY 12M Diesel with its environmentally friendly and efficient diesel engine, PROCITY 12M EV, an electric bus representing the future of sustainable transportation, and BMC 417, BMC's new light truck offering a wide range of uses with different superstructure options, will meet with visitors.

PROCITY 12M EV

PROCITY 12M EV can recharge itself in short breaks of 8-12 minutes thanks to the pantograph fast charging system mounted on its roof. Offering a range of 80 km with its 111,6 kWh LTO battery, PROCITY 12M EV provides uninterrupted service for up to 24 hours with its practical and

PRESS RELEASE

BMC 417 offers an ideal infrastructure for different requirements such as hydraulic platform vehicles, refrigerated dumper bodies, garbage trucks, vacuum trucks, fire trucks, road sweepers and auto rescuers. The vehicle also draws attention with its short or long chassis option, suspension system with strong scissors and high power take-off output power. Thanks to the harmony between the engine and the drivetrain, BMC 417 meets the expectations of its customers in terms of fuel consumption with its optimized fuel consumption.

BMC 417 offers users great comfort with its ergonomic design in the cabin, while providing safe driving for users with its rich equipment and high security systems. BMC 417 light truck, which enables fast and effective service delivery required by growing cities and increasing population, contributes to the uninterrupted 24/7 continuity of urban services with its flexibility and durability in areas such as fast mobile solutions, waste management, logistics and transportation services required by new lifestyles. This not only supports the sustainable development of cities, but also improves the quality of life.

ABOUT BMC

With its PROCITY, NEOCITY and NEOPORT city bus family; BMC is the leading exporter of CNG city buses in Türkiye with its environmentally friendly CNG buses exported to countries such as Azerbaijan, Georgia, Serbia, Italy, Lithuania and North Macedonia.

Continuing diesel bus sales in Türkiye and other neighboring countries, especially in Europe; BMC is determined to achieve its growth and development targets by expanding its dealer and service network in countries such as Poland, Germany, France, Croatia and Denmark.

In addition, BMC, one of Europe's leading apron bus manufacturers, continues to increase its export success by exporting Türkiye's first domestic and national apron bus NEOPORT, which is actively used domestically, to countries such as Kazakhstan and Saudi Arabia.
